

LIGHTS

Light up your sales and keep customers safe too!

The right number of lumens at the right prices, all in a well styled, contemporary line of lights. With daytime taillights bright enough for virtually any driver to see to economical dusk or dawn blinker lights; EVO's all-new NiteSight™, NiteBright™ and NiteLight™ lineup are sure to light up your sales.

Why EVO?

1

THE RIGHT PARTNER

A seasoned team of product management and marketing professionals work tirelessly behind the scenes. They use their personal bike shop experiences to develop and deliver the right products with the right features for today's marketplace.

2

THE RIGHT SELECTION

Everything your shop needs and nothing it doesn't. This tight, well-curated line of lights is designed to lead customers to exactly what they need while leaving the noise of too many SKUs behind.

3

THE RIGHT PRICES

Right-priced and feature-rich to overcome objections. EVO offers a tremendous value for the dollar.

PickRight™

PickRight™ is a series of descriptive icons, product names and “use” defining phrases working together on EVO packaging – allowing shop staff to confidently guide customers to the right products for their bike.

MOUNTAIN

Off-road-style bicycles with low tire pressure

ROAD

Road racing style bicycles with high-pressure tires

CITY

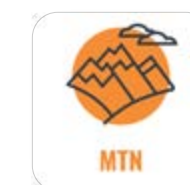

Hybrid and upright riding commuting-style bicycles

PATH

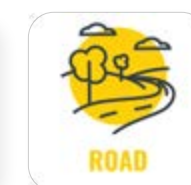

Slow-rolling comfort path style bicycles, such as beach cruisers, with wider tires

KIDS

Youth and kids bicycles
